Firm in the North Division.—At two o'clock yesterday morning an alarm of fire was rung for the fifth district, caused by the burning of a mail-house, located on the southeast corner of Kingsbury and Illinois street, owned by Jehn McMahon. The building was a large two-story frame, and though the fire department turned out with their annal prompiness, and worked heroically under the personall supervision of Superintendent Harris, yet before the fiames could be entirely subdued, the building and its contents were consumed. The boiler, engine, and 'other machinery were destroyed or rendered worthless. There had been no fire used in the building for a day or two previous to the coding gration, and all the circumstances indicate that it was the act of an incendiary. The loss will reach \$6,000.

The rebels had set fire to the town of Jackson, and our forces completed the countagration—reducing the whole place to rains.

Johnston escaped by means of his cavalry, which arm of his torce, as his been before stated, was very strong. Several hundred prisoners were taken by Gen. Sherman, among them a number of the secash that were under Pemberton, who had recently been paroled here in Vicksburg by Gen. Grant. Them Gen. Sherman fook out and shed on the spec.

The Indian Territory is concepted by the Cherokee's, Creeks and Chocates, the Creek inhabiting the central strip, from east to west. A brief resume of the operations in this department will be of interest. On the 4th of July Gen. Blunt and Staff arrived, from Fort Lawrenworth, at Fort Scott, a military post on the Marmitton Creek or river—a small branch of the Osage River, and eight miles west of the Missouri State line. He immediately took all the available forces at that point, 200 cavairy with two pieces of artiflery, and left for Fort Gibson, a military station in the Indian Territory, on the Moshe River, near its entrance with the Arkansas River, to reinforce colonel Phillips, who was threatened by the cassay. Just prior ty this Col. Phillips had defeated the enemy, consisting of 800 Indians and 400 Texan rangers, in a gallant fight at Cabin Creek, in the vicinity of Fort Blunt. Immediately after the fight reinforcements, to the number of 3,000, were hurrying forward to the rebels from Fort Smith, a station on the vight bank of the Arkansas River and on the boundary line of Arkansas, Col. Phillips was hen in imminent danger of bicing overwhelmed by a vastly superior force. Gen.
